NEW DECO

Designed by Libby Langdon

**DISTINCTIVE ICE
GLASS ADDS A TOUCH
OF **FROSTY ALLURE**,
CAPTURING LIGHT
WITH A UNIQUE
TEXTURE.**

The Ackerly Collection showcases stunning ice glass, a textured material that resembles frozen or cracked ice. Its frosted, crystalline surface uniquely scatters light, producing a soft, diffused glow. This organic, sculptural effect adds a modern yet slightly retro touch to the design. The collection is suspended from a tiered, disc-shaped framework of concentric metal discs. It starts with a smaller disc at the top, expands to a larger middle disc, and then tapers down to a smaller lower disc. The Ackerly Collection combines artistic edge and mid-century influences for a bold yet timeless design.

The Lofton Collection showcases mid-century sophistication with its stepped, tiered design and distinctive Triedri glass rods. Created using a technique that involves making triangular cuts on the glass, the Triedri method results in a faceted, crystal-like appearance that enhances sparkle and depth. The glass gracefully cascades downward and inward, framed in Polished Nickel or Aged Brass. This dynamic design ensures that the Lofton Collection remains a luxurious and visually striking centerpiece, with its facets reflecting light in captivating ways from any angle.

TRADITION WITH A TWIST THAT FEELS BOTH **FAMILIAR** AND REFRESHINGLY **NEW.**

The Rollins Collection, with its option to shine with or without its classic shade, is a timeless piece that effortlessly adapts to different settings, seamlessly fitting into traditional and modern aesthetics. Its Antique Gold finish and large white round silk shade testify to its timeless elegance. However, choosing the shadeless version reveals the chandelier's organic inner metal frame, showcasing sweeping arms and elongated crystal drops for a more open and airy aesthetic.

The Sadie Chandelier is a multi-tiered fixture that embodies the influence of the Baroque period with its classic Versailles-style design. Adorned with crystal drops, it captures the historic grandeur of the era. The metalwork and decorative elements feature intricate motifs such as filigree and scrolls designed to resemble organic branches, offering a natural, flowing aesthetic that sparkles with a refined, luxurious touch.

The Laurel wall sconce showcases a sleek, contemporary design with its multiple-ring structure that adds a touch of modern sophistication. It features a fabric shade in classic black or white, allowing for versatile styling options. The clean lines and geometric elegance of the Laurel make it a striking addition to any contemporary space.
